

Visual-Motor Integration · Ages 3-7 · Building tier · Shapes · 5 minutes

Draw from START to EXIT without touching a wall. Count wall contacts rather than stopping the run. Slow the pace before you narrow the maze.

The diagram illustrates a river network. A vertical line on the left is labeled 'START' at the bottom. Three horizontal lines branch off to the right at different heights. The top horizontal line is labeled 'EXIT' at its right end. The middle horizontal line is shorter than the top one. The bottom horizontal line is the shortest of the three. All lines are black.

In corridor ____ of ____ trials Forms completed ____ / ____ Time _____ Cues (V / G / P) _____
Position: seated / standing / vertical surface Hand: R / L Stabilizing hand used: Y / N
Carryover: One maze at home per session day; time it only after accuracy is stable.
